### Recommendation Letter for Bounds Commercial Construction

To whom it may concern,

I am writing to recommend Bounds Commercial Construction for any construction related project you may be considering. I had the privilege of working with this company this past year and was very pleased with the work they performed for us.

As a background, we began a gym construction project with another company. After years of delays and frustration, this project came to a complete halt, the previous contractor was terminated, and the project was turned over to the bonding company for completion. This is when I was introduced to Bounds Commercial Construction. They came into our district and took over the project and completed it a very short amount of time. In addition, they were very attentive to detail and corrected the errors that were present from substandard work from the previous contractor. They were mindful of our needs, communicated extremely well, and performed tasks efficiently and effectively. Even after completion of the project, they continue to be extremely helpful and attentive to us with correcting any minor issue that has arisen with the new build. We are now in our new gym and our students, coaches, and community are enjoying it greatly.

With this, I have no hesitation with recommending Bounds Commercial Construction. Our experience with them was extremely positive and I will certainly consider them for future building needs in our district. If you have questions, feel free to give me a call at (254) 835-4718.

Travis Stilwell

Superintendent, Tolar ISD
