Re: Letter of Reference for Bounds Commercial Construction

To Whom It May Concern:

Please accept this letter of reference for Bounds Commercial Construction for any upcoming construction services your school district may require. Over the past year, I have worked directly with Bounds Construction in relation to the exemplary and timely services they provided the West Independent School District in West, Texas, in the completion of our new district-wide Agriculture Science Complex on the grounds of West Middle and High School.

This project centered on the construction of a 11,040 SF animal barn including work space, animal pen areas, a show ring, a wash area, storage, restrooms, kitchenette, an 1,800 SF greenhouse, and an outdoor classroom space. They also reconstructed an old well house, covered the new drives and parking areas with a gravel pavement base, and oversaw the dirt work for a new water retention tank. They even recommended several areas of savings for the district specifically in regards to our technology networking and infrastructure plans and provided expertise in ensuring all state-required safety standards were included in our project.

Throughout their time in West, Bounds Construction consistently demonstrated their attention to detail, quality, and safety. It is the policy of this company to strive for the highest safety standards, and they always kept our Construction Lead and me in the loop on any and all construction and safety matters. Bounds Construction effectively met each project schedule requirement and was able to quickly adapt to schedule changes from other subcontractors and our district architect in order to keep our project completion date on time. In addition, Bounds Construction was exceptionally accommodating when dealing with unforeseen weather conditions and potential change orders. They were more than willing to meet with our District Leadership Team and architect on a weekly basis and always emailed and returned all phone calls in a timely manner. They even assisted with several community events and tours of the new facility.

Please consider Bounds Commercial Construction for your future construction service needs. I highly recommend them and look forward to working with them again. If you have any questions or need additional information, please do not hesitate to give me a call at (254) 981-2000.

Sincerely,

David Truitt, Superintendent
